OUR ANGELS WANT EACH OF US TO HEAR!

The Angel Messenger

## DO YOU HEAR WHAT I HEAR? ?

*Yes, They will talk to us when we are ready to listen!*

As I begin 30 years celebration since my first Angel visit I realize that time does seem to fly when your having fun! Excitement bubbles lift within me and I want to briefly tell you what my Angels of The Light mean to me in this Anniversary Special newsletter. I'll try to contain myself a bit, so I don't ramble on.

It was December 13, 1994. I can immediately return to that pivotal experience like it was yesterday. I was practicing a meditation that held me in a lingering gratitude. I actually heard outside my head, a powerful voice, a deep male voice that is all encompassing. **"DRAW HIS ANGEL!"** ... this suggestion although totally unexpected was somewhat relevant to my current desire. I asked, "WHO ARE YOU?" My question was quickly answered, **I am an Angel of The Light!** . ([my full story](#))

These ANGEL adventures have certainly stretched me out of my comfort zone, to release my need to control events. I began to practice the gift of channeling / receiving ANGEL ENERGY PORTRAITS that are uniquely representative of each individual.

Witnessing and personally experiencing miracles in these days, weeks, months and years expanded my sense of a suspended joy!

A new Life direction ignited within me at that moment in time! Thoughts on ANGELS prior to this experience was that they were beautiful, powerful energies that hung around God and appear in religious photos. Never did my thoughts include .. could I as an ordinary person truly talk with Angels?

However, a big YES is the answer to this as the ANGELS emphatically add, that a personal and open connection to all souls here is their desire. (Do you Hear what I hear? This means you too can connect with YOUR Angels!)

My Angel adventure began with confirmation of my chosen mission, totally oblivious to me and somewhat hidden within the meaning of my name!

I admit, this first GUIDED adventure left me stunned, yet really wanting to see more. My soul growth perception of Divine Guidance was to expand to a broader inclusion of myself on my journey here. Yes, I physically saw a much larger picture that includes and expands me within it's infinite evolving energy display to engage a SOUL team. (My TEAM - of Mind, Ego, Body & Soul) One picture is forever highlighted in my mind. My soul acknowledged itself in a living golden colour / color VISION!! - [my book](#) - channeled in just 33 days)

After the first 20 Years of ANGEL ENERGY MIXING ... I knew without a doubt what my life mission is! This leads to a motivating power to express this mission by mixing of energies.

(My Angels' with mine) An awareness that I cannot do this divine work alone keeps the mix of powerful guidance in my aura energy field of possibilities.

WANT TO experience this Angel space yourself? Simply do so by setting up an Angel Alert. This action further opens your Divine/Angel ENERGY Mixing!

Then direct your attention to your immediate environment to gain the message of guidance. For me, this Angel Alert is the magical feather tickle right in front of my nose! ([Choose your own unique alert.](#))

### **What am I most grateful for?**

I am no exception, when it feels good I want more! When more expands into JOYFULNESS it becomes a new life embrace! To expand into this energy for me was the leap of faith that I took many years ago. I opened a door back then that carried me into a continuous adventure of ALL encompassing love.

I never want to close that door! It is an abundant space as supportive as it is buoyant with Love. And to have had a glimpse of heaven is a blessing I treasure! To witness the inspiration in others when recognizing their own Angels mirror energy propels me to walk my talk in a way that is of ease, as the ANGELS suggest. Each tailored and orchestrated step on my journey overflows in a spectacular displayed of adventures.

The KEY ... yes there is a key. It opens all the closed compartments in our minds. Old concepts are suspended long enough to allow a leap of faith, if only to become a detective and see for our self. **This Divine Key to SEE and FEEL the blessings, healing, joy and lightness** that spills over into our life is compelling. This powerful key can automatically guide us to re-write our future life story with an insight-fully Divine fountain pen.

That 'leap of faith' that I took way back then, is described in the dictionary as - a 'curiosity', an 'adventure', and also a 'push off the fence'. Maybe all three happened for me!!!

### **What excites me?**

I sense a universal excitement wrapping the globe. The advancements in science of quantum physics and medical research is experiencing leaps and bounds. A MUST WATCH is this video of Brain Researcher, Dr. Jill Bolte Taylor's stoke of insight.

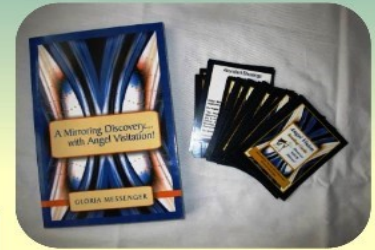

A critical mass soul growth awareness is near! In my lifetime a YIN and YANG (left & right brain) balance to accessing the power of Divine awareness is approaching. I am anxiously anticipating another 30 years of this work with The Angels of The Light!!!
